

**CITY OF WEST SACRAMENTO
LARGE VENUES/EVENTS WASTE REDUCTION PLAN**

If you have responsibility for waste management at a large venue, such as a stadium, convention center or amusement park, or manage a large event serving more than 2,000 people such as a concert, food festival or golf tournament, California Assembly Bill 2176 requires that you **must**:

- **Prepare a waste reduction plan.** The law requires large venue and large event operators meet with recyclers and solid waste handlers to select an appropriate waste diversion programs. See the following **Permitted Hauler List** for a list of haulers currently permitted to provide waste disposal/recycling services in West Sacramento. In determining feasible programs, operators may select a target diversion rate and develop a plan and timeline to meet that goal. What is appropriate will vary with each venue and event. A City of West Sacramento Large Venue/Event Waste Reduction Plan and Data Sheet are attached for your use. Waste Reduction Plans for large venue fixed facilities must be updated every two years. The City of West Sacramento requires a new Waste Reduction Plan be submitted for each temporary large event. Visit <http://www.calrecycle.ca.gov/Venues/Analysis/Default.htm> for more information on preparing a waste reduction plan.
- Provide written documentation, within 30 days upon request of the City of West Sacramento, listing all material types that will be generated at the event. **Please see Attached Part 1- Large Venue/Event Waste Reduction Plan.**
- Provide written documentation, within 30 days upon request of the City of West Sacramento, of the progress of the waste reduction, reuse, recycling and diversion programs in your plan, or an explanation of their delay, as well as the type and weight of materials diverted and disposed. Venue and event operators should take these requirements into consideration and plan ahead to make reporting easier. **Please see Attached Part 2- Large Venue/Event Waste Reduction Data Sheet.**

AB 2176 defines a “large event” as:

1. Serves an average of more than 2,000 individuals per day of operation (both people attending the event and those working at it, including volunteers, are included in this number); **and**
2. Charges an admission price or is run by a local agency (a city or county).

This bill specifically includes public, nonprofit, or privately owned parks, parking lots, golf courses, street systems of other open space when being used for an event including, but not limited to, a sporting event or a flea market in addition to the other events that meet #1 and #2 above. See <http://www.calrecycle.ca.gov/Venues/Analysis/Default.htm> for more information.

Tips for recycling success: Make it convenient.

Typically, large events may generate plastic and aluminum beverage containers, edible excess food and food waste, paper, cardboard and packaging materials, wood and metal scraps and garbage. If you are selling beverages, choose containers that can be recycled such as aluminum, glass and plastic bottles. Waxed paper and Styrofoam cups cannot be recycled locally.

Place recycling and trash containers together at well-traveled locations such as food booths, restrooms, entrances and exits. Guests will likely not go out of their way to recycle if a trash container is more convenient.

Make recycling containers look different than trash containers. Use a different colored recycling container, such as blue. Label recycling containers with large, clear and specific wording such as “Plastic beverage containers accepted HERE.”

Consider training event staff grounds keepers to monitor recycling container and transfer easy visible misplaced items into the proper disposal container. Monitored disposal areas can greatly reduce cross contamination of trash and recycling containers and improve recycling rates.

Also consider, as part of your waste reduction plan, donating edible leftover food to one of many local food banks such as the Sacramento Food Bank at (916) 456-1980, the River City Food Bank (916) 446-2627 or the Food Bank of Yolo County at (530) 668-0690.

PERMITTED HAULERS LIST

The companies listed below are currently permitted to haul solid waste in the City of West Sacramento*.

1. Advance Disposal P.O. Box 97 Standard CA 95373 (916) 444-8676
2. Allied Waste/BFI Waste Services of Sacramento 3326 Fitzgerald Road Rancho Cordova CA 95742 (916) 631-0600
3. Atlas Disposal Industries, LLC 3000 Power Inn Road Sacramento CA 95826 (916) 455-2800
4. Elk Grove Waste Management P. O. Box 809 Wilton CA 95693 (916) 689-4052
5. Greenwaste of Sacramento 4201 Florin Perkins Road Sacramento CA 95826 (916) 429-9900
6. GW Demolition P.O. Box 37 Rio Linda CA 95673 (916) 992-0741
7. North Cal Hauling Co. 5714 Folsom Blvd., #285 Sacramento CA 95819 (916) 381-9033
8. North West Recyclers P. O. Box 1162 Elk Grove CA 95759 (916) 686-8575
9. Patrick's Construction Clean Up 7851 14th Avenue Sacramento CA 95826 (916) 452-5495
10. Quality Construction Clean Up, Inc. P.O. Box 292909 Sacramento CA 95829 (916) 388-8989
11. Recology Auburn Placer P. O. Box 6566 Auburn CA 95604 (530) 885-3735
12. Waste Management of Sacramento 1324 Paddock Place Woodland CA 95776 (916) 387-1400
13. Waste Removal & Recycling 8710 Jackson Road Sacramento CA 95826 (916) 453-1400

*Please note that Waste Management is the only hauler permitted to haul waste in front-loading containers. All other haulers must use roll-off containers to haul solid waste within the city limits
